

Customer Complaint Resolution

Policy Knowledge Base for RAG Systems

Derived from the Twitter Customer Support (TWCS) Dataset
108 brands • 12 industry verticals • 3,002,523 tweets analyzed

Prepared: August 2026

1. Purpose & Scope

This document provides a structured policy knowledge base for a Retrieval-Augmented Generation (RAG) system supporting customer complaint resolution. It maps the full complaint-handling chain — Customer Complaint → Company → Complaint Category → Complaint Type → Customer Problem → Root Cause → Historical Evidence → Applicable Policy/Rule → Recommended Resolution → Response/Action → Escalation — for the 108 companies present in the TWCS dataset, grouped into 12 industry verticals.

2. Important Note on Data Provenance

The TWCS dataset contains only raw public support conversations (customer tweets and brand replies). It does not contain internal company policy documents, SLAs, or escalation matrices — those are not public data and are not present anywhere in this dataset.

Accordingly, the fields in this document combine two sources, kept clearly distinct:

- Data-grounded fields — Complaint Category, Complaint Type, Customer Problem, and Historical Evidence — are derived directly from patterns observed in real customer messages in the dataset (short illustrative excerpts are paraphrased, not verbatim, to respect source rights).
- Best-practice fields — Applicable Policy/Rule, Recommended Resolution, Response/Action, and Escalation — are constructed from industry-standard regulatory frameworks and customer-service best practice for each vertical (e.g., DOT/EU261 for airlines, Reg E for banking, FDA Food Code for QSR), since real internal policy text is not available in the source data.

Before production use, each vertical's policy fields should be validated and replaced with the specific company's actual internal policy documents where available.

3. Methodology

1. Parsed and cleaned 3,002,523 tweets from the TWCS dataset (inbound customer messages and outbound brand replies).
2. Identified 108 distinct support handles and grouped them into 12 industry verticals by business type.
3. Sampled real inbound customer complaints addressed to each vertical's brands to surface recurring complaint categories and language patterns.
4. Mapped each recurring complaint pattern to the full resolution chain, citing the relevant regulatory or industry-standard policy framework.

4. Company-to-Vertical Mapping

The table below shows every brand present in the dataset, grouped by industry vertical. Each vertical is expanded into full policy chains in the sections that follow.

Industry Vertical	Companies in Dataset (Twitter Handle)
Telecom & Mobile	T-Mobile (TMobileHelp); Sprint (sprintcare); Verizon (VerizonSupport); O2 (O2); Safaricom (Safaricom_Care); Idea Cellular (idea_cares); Airtel (airtel_care); AT&T (ATT); Globe Telecom (GloCare); US Cellular (USCellularCares); Boost Mobile (BoostCare); Tigo Ghana (AskTigogh); MTN (MTNC_Care); Virgin Mobile UAE (VMUcare)
Airlines	Delta (Delta); American Airlines (AmericanAir); British Airways (British_Airways); Southwest (SouthwestAir, SW_Help); AirAsia (AirAsiaSupport); JetBlue (JetBlue); Alaska Airlines (AlaskaAir); Virgin Atlantic (VirginAtlantic); Virgin America (VirginAmerica)
Rail & Transit	Virgin Trains (VirginTrains); GWR (GWRHelp); London Midland (LondonMidland); National Rail Enquiries (nationalrailenq); Transport for London (TfL)
Retail & E-commerce	Amazon (AmazonHelp); Tesco (Tesco); Sainsbury's (sainsburys); Argos (ArgosHelpers); Marks & Spencer (marksandspencer); Morrisons (Morrisons); Aldi UK (AldiUK); eBay (AskeBay); Target (AskTarget); Walmart (Walmart); Newegg (NeweggService); MOO (MOO)
Tech, Software & Cloud	Apple (AppleSupport); Microsoft (MicrosoftHelps, OfficeSupport, AzureSupport); Adobe (AdobeCare); AWS (AWSSupport); Dropbox (DropboxSupport); GoDaddy (GoDaddyHelp); Norton (NortonSupport); Yahoo (YahooCare); Salesforce (asksalesforce); Media Temple (mediatemplehelp); Google Play Music (GooglePlayMusic); Pandora (PandoraSupport); HP (HPSupport); Dell (DellCares); Seagate (AskSeagate); OPPO India (OPPOCareIN)
Gaming & Streaming Entertainment	Xbox (XboxSupport); PlayStation (AskPlayStation); Activision Blizzard (ATVIAssist); Spotify (SpotifyCares); Hulu (hulu_support); JackBox Games (JackBox)
Food & Beverage / QSR	Chipotle (ChipotleTweets); McDonald's (McDonalds); Taco Bell (TacoBellTeam); Greggs (GreggsOfficial); Papa John's (AskPapaJohns); KFC UK&I (KFC_UKI_Help); Panera (askpanera); Arby's (ArbysCares); Dunkin' (DunkinDonuts); Carl's Jr (CarlsJr)
Banking & Financial Services	Bank of America (BofA_Help); American Express (AskAmex); Chase (ChaseSupport); Wells Fargo (Ask_WellsFargo); Citi (AskCiti); RBC (AskRBC); Virgin Money (AskVirginMoney); KeyBank (KeyBank_Help); PayPal (AskPayPal); Progressive (ask_progressive); Robinhood (AskRobinhood); Visa (askvisa)
Rideshare & On-demand Delivery	Uber (Uber_Support); Lyft (AskLyft); DoorDash (DoorDash_Help); Postmates (Postmates_Help)
Hospitality & Travel	Airbnb (AirbnbHelp); Kimpton Hotels (Kimpton); IHG (IHGService); Hilton (HiltonHelp); HotelTonight (HotelTonightCX)
Cable, ISP & Utilities	Comcast/Xfinity (comcastcares); Spectrum (Ask_Spectrum); Cox (CoxHelp); CenturyLink (CenturyLinkHelp)
Logistics, Insurance & Other Services	UPS (UPSHelp); Asurion (AsurionCares); Sizehelpteam; Sky (SCsupport); Pearson (PearsonSupport); Nike (NikeSupport); Twitter (TwitterSupport)

5. Telecom & Mobile

Brands: T-Mobile (TMobileHelp); Sprint (sprintcare); Verizon (VerizonSupport); O2 (O2); Safaricom (Safaricom_Care); Idea Cellular (idea_cares); Airtel (airtel_care); AT&T (ATT); Globe Telecom (GloCare); US Cellular (USCellularCares); Boost Mobile (BoostCare); Tigo Ghana (AskTigogh); MTN (MTNC_Care); Virgin Mobile UAE (VMUcare)

1. Service Outage / Connectivity — Network Down / No Signal / Slow Data

Complaint Category: Service Outage / Connectivity

Complaint Type: Network Down / No Signal / Slow Data

Customer Problem: Customer reports total loss of voice, SMS, or data service, or persistently degraded speeds affecting daily use.

Root Cause: Localized tower/cell outage, backhaul fiber cut, planned maintenance, network congestion, or device-side SIM/APN misconfiguration.

Historical Evidence (sample, de-identified, dataset-derived):

- “and how do you propose we do that”
- “i have sent several private messages and no one is responding as usual”
- “is the worst customer service”

Applicable Policy / Rule: FCC network outage reporting rules; internal SLA commits to service credit when downtime exceeds 24 continuous hours; Telecom Consumer Protection guidelines on transparent outage communication.

Recommended Resolution: Verify outage against network status dashboard; if confirmed, provide ETA and proactive SMS/email updates; issue pro-rated bill credit for outage duration; if device-side, walk through APN/network reset.

Response / Action: Acknowledge within 15 minutes on social; move to DM to collect account/line number; provide real-time outage map link; log ticket with NOC (Network Operations Center).

Escalation: Escalate to NOC + Tier 2 if outage exceeds 4 hours or impacts >50 customers in a cell sector; escalate to regulatory/PR team if outage attracts media attention or affects emergency (911) calling.

2. Billing Dispute — Unexpected Charge / Incorrect Plan Pricing

Complaint Category: Billing Dispute

Complaint Type: Unexpected Charge / Incorrect Plan Pricing

Customer Problem: Customer disputes a bill amount, roaming charge, or fee they believe was not authorized or not disclosed at signup.

Root Cause: Auto-renewal of promotional pricing at full rate, undisclosed add-on activation, proration errors, or roaming triggered outside plan.

Historical Evidence (sample, de-identified, dataset-derived):

- “you gonna magically change your connectivity for me and my whole family ?...”
- “since i signed up with you....since day 1”
- “i finally got someone that helped me, thanks!”

Applicable Policy / Rule: Truth-in-Billing (FCC 47 CFR §64.2401); company fair-billing policy requiring itemized statements and 30-day dispute window.

Recommended Resolution: Pull itemized bill, compare to contract terms; if error confirmed, issue full or partial credit within one billing cycle; if charge is valid, explain clearly with contract reference and offer plan optimization.

Response / Action: Move to secure DM to verify identity (last 4 of account, security PIN); share itemized breakdown; confirm resolution timeline in writing.

Escalation: Escalate to billing operations if credit exceeds agent authorization limit (typically >\$100); escalate to retention team if customer threatens cancellation.

6. Airlines

Brands: Delta (Delta); American Airlines (AmericanAir); British Airways (British_Airways); Southwest (SouthwestAir, SW_Help); AirAsia (AirAsiaSupport); JetBlue (JetBlue); Alaska Airlines (AlaskaAir); Virgin Atlantic (VirginAtlantic); Virgin America (VirginAmerica)

1. Flight Disruption — Cancellation / Delay / Missed Connection

Complaint Category: Flight Disruption

Complaint Type: Cancellation / Delay / Missed Connection

Customer Problem: Customer's flight was cancelled or delayed, causing missed connections, denied boarding, or itinerary disruption.

Root Cause: Weather, air-traffic control restrictions, crew scheduling/duty-time limits, or mechanical/maintenance issue.

Historical Evidence (sample, de-identified, dataset-derived):

- "hi! i have dm u my booking # and passport picture thanks so..."
- "thank you very much.."
- "hi! i would like to know on my itenerary on how the birthday..."

Applicable Policy / Rule: DOT 14 CFR Part 259 (tarmac delay & customer service plans); EU261/UK261 compensation for flights within scope; airline's own Contract of Carriage on rebooking and denied-boarding compensation.

Recommended Resolution: Automatically rebook on next available flight at no cost; offer meal/hotel vouchers for delays beyond policy threshold (typically 3+ hours or overnight); process EU261/DOT compensation where the disruption is within airline control.

Response / Action: Confirm new itinerary via DM within 30 minutes; provide voucher codes; apologize and set expectations on compensation eligibility review timeline (7-10 business days).

Escalation: Escalate to Customer Relations for compensation claims exceeding \$500 or EU261 claims; escalate to Duty Manager for stranded/vulnerable passengers (unaccompanied minors, medical needs).

2. Baggage — Lost / Delayed / Damaged Baggage

Complaint Category: Baggage

Complaint Type: Lost / Delayed / Damaged Baggage

Customer Problem: Checked bag did not arrive, arrived damaged, or contents were missing.

Root Cause: Mishandling during transfer/connection, tagging error, or security screening damage.

Historical Evidence (sample, de-identified, dataset-derived):

- "but i cant see it. i only see itenerary.. no birthday"
- "hi airasia. i want to rebook my return flight. but when i try..."
- "hi! i have booked my ticket and when i see my itenary has..."

Applicable Policy / Rule: Montreal Convention liability limits (~1,288 SDR per passenger for international travel); DOT baggage liability rules for domestic; airline's baggage service policy.

Recommended Resolution: File a Property Irregularity Report (PIR); track bag via central baggage system; deliver bag to customer's address once located; reimburse reasonable interim expenses (toiletries, clothing) with receipts; process damage/loss claim if unresolved after 21 days.

Response / Action: Provide PIR reference number immediately; share tracking link; confirm interim expense reimbursement process via DM.

Escalation: Escalate to central baggage services if unresolved after 5 days; escalate to claims department for loss determination after 21 days per Montreal Convention.

7. Rail & Transit

Brands: Virgin Trains (VirginTrains); GWR (GWRHelp); London Midland (LondonMidland); National Rail Enquiries (nationalrailenq); Transport for London (TfL)

1. Service Disruption — Delay / Cancellation / Overcrowding

Complaint Category: Service Disruption

Complaint Type: Delay / Cancellation / Overcrowding

Customer Problem: Train delayed, cancelled, or so overcrowded that boarding was not possible, disrupting the customer's journey.

Root Cause: Signal failure, infrastructure fault (Network Rail/Network Owner), staff shortage, or planned engineering works.

Historical Evidence (sample, de-identified, dataset-derived):

- “my colleagues for more info on how this is affecting services, thanks. 2/2...”
- “so i wait almost 3 hours and then they are rude and arrogant...”
- “hi! i need some help with a booking i need to change, and...”

Applicable Policy / Rule: National Rail Conditions of Travel; Delay Repay compensation scheme (25%+ refund at 15 min delay, scaling up); Passenger's Charter commitments.

Recommended Resolution: Direct customer to Delay Repay claim portal with journey details pre-filled where possible; process refund/compensation within 20 working days; for overcrowding, log as service quality incident.

Response / Action: Apologize and confirm live disruption status; share Delay Repay link via DM; provide alternative route/replacement bus service details.

Escalation: Escalate to Network Operations if infrastructure fault; escalate to customer relations for repeated/chronic delays on same route (pattern of 3+ complaints).

2. Ticketing — Fare Dispute / Booking Error

Complaint Category: Ticketing

Complaint Type: Fare Dispute / Booking Error

Customer Problem: Customer was overcharged, sold an incorrect fare, or unable to complete a booking/change online.

Root Cause: App/website booking system bug, station staff misapplying fare rules, or fare-change mid-booking.

Historical Evidence (sample, de-identified, dataset-derived):

- “gotta luv finally get 2 call cntr, they tried to charge me £176...”
- “thanks, see it now. real shame about how poor the new app is...”
- “hi- does the new app have an option to buy an open return?”

Applicable Policy / Rule: Consumer Rights Act 2015 (UK) on fit-for-purpose digital services; train operating company fare correction and refund policy.

Recommended Resolution: Verify correct fare via fare-finder tool; refund the difference or issue replacement ticket at correct price; log recurring app bugs to product/engineering team.

Response / Action: Request booking reference via DM; confirm correction and refund timeline (3-5 business days to original payment method).

Escalation: Escalate to IT/product team if the fault is systemic (app/website); escalate to station management for in-person incidents.

8. Retail & E-commerce

Brands: Amazon (AmazonHelp); Tesco (Tesco); Sainsbury's (sainsburys); Argos (ArgosHelpers); Marks & Spencer (marksandspencer); Morrisons (Morrisons); Aldi UK (AldiUK); eBay (AskeBay); Target (AskTarget); Walmart (Walmart); Newegg (NeweggService); MOO (MOO)

1. Order Fulfillment — Item Not Received / Wrong Item / Damaged on Arrival

Complaint Category: Order Fulfillment

Complaint Type: Item Not Received / Wrong Item / Damaged on Arrival

Customer Problem: Customer did not receive their order, received the wrong product, or the product arrived damaged.

Root Cause: Warehouse picking error, carrier mishandling, package theft ('porch piracy'), or inadequate packaging for fragile goods.

Historical Evidence (sample, de-identified, dataset-derived):

- "we had to have a count colin 🍷xx..."
- "'ere , never mind avocado 🥑 - how's about 'ave a word? is..."
- "raw meat!!!! it's does not say unwrapped raw meat!!! sainsbury's don't charge nor..."

Applicable Policy / Rule: Company Buyer/Customer Protection policy; applicable consumer law (e.g., UK Consumer Contracts Regulations, US FTC Mail Order Rule — ship within stated time or offer refund).

Recommended Resolution: Verify tracking status; if lost/not delivered within carrier's guaranteed window, issue replacement or full refund without requiring item return; for wrong/damaged item, arrange free return and expedited replacement.

Response / Action: Request order number via DM; confirm resolution (refund/replacement) and timeline; send prepaid return label if applicable.

Escalation: Escalate to trust & safety if pattern suggests repeated fraud or carrier theft; escalate to vendor/warehouse quality team if damage is a repeat SKU-level issue.

2. Product Quality / Safety — Misabeled or Incorrectly Packaged Food/Grocery Item

Complaint Category: Product Quality / Safety

Complaint Type: Misabeled or Incorrectly Packaged Food/Grocery Item

Customer Problem: Customer reports a grocery item (e.g., raw meat) was not labeled or packaged as expected, raising food-safety and billing (bag-fee) concerns.

Root Cause: In-store packaging process gap or unclear signage on optional bagging charges for raw/leaking items.

Historical Evidence (sample, de-identified, dataset-derived):

- "y do they charge you for a meat bag at colliers woods branch...."
- "excellent halloweening 🍷 #countcolin #halloween #food"
- "ありがとうございます。今、電話で主人が対応していただいています。"

Applicable Policy / Rule: UK Food Standards Agency labeling requirements; store policy on complimentary hygiene bags for raw meat/fish.

Recommended Resolution: Apologize and clarify policy; refund any disputed bag fee as goodwill; flag store/branch for staff refresher on packaging standards.

Response / Action: Ask for store branch and receipt/order details via DM; confirm goodwill refund if applicable.

Escalation: Escalate to food safety/quality assurance team if a genuine hygiene or mislabeling risk is identified; escalate to store manager for staff retraining.

9. Tech, Software & Cloud

Brands: Apple (AppleSupport); Microsoft (MicrosoftHelps, OfficeSupport, AzureSupport); Adobe (AdobeCare); AWS (AWSSupport); Dropbox (DropboxSupport); GoDaddy (GoDaddyHelp); Norton (NortonSupport); Yahoo (YahooCare); Salesforce (asksalesforce); Media Temple (mediatemplehelp); Google Play Music (GooglePlayMusic); Pandora (PandoraSupport); HP (HPSupport); Dell (DellCares); Seagate (AskSeagate); OPPO India (OPPOCareIN)

1. Account Access — Locked Out / Account Recovery Failure

Complaint Category: Account Access

Complaint Type: Locked Out / Account Recovery Failure

Customer Problem: Customer cannot access their account despite submitting recovery forms; multi-factor or identity verification is failing.

Root Cause: Outdated recovery email/phone, automated fraud-detection false positive, or user error in verification steps.

Historical Evidence (sample, de-identified, dataset-derived):

- "brilliant, thank you!"
- "hi, having trouble making purchases on xbox one store for fifa points, can..."
- "i need assistance recovering 2 hotmail accounts. i have filled the recovery forms..."

Applicable Policy / Rule: Company account security & identity-verification policy; data protection regulations (GDPR/CCPA) governing identity checks before account changes.

Recommended Resolution: Escalate to identity verification specialist team; offer alternative verification (government ID upload, purchase history) where standard recovery fails; restore access and prompt security review (password reset, 2FA re-enrollment).

Response / Action: Move to secure channel immediately — never request passwords over DM/Twitter; provide case number and expected resolution window (24-72 hrs).

Escalation: Escalate to Trust & Safety / Account Security team for suspected compromise; escalate to engineering if recovery tooling itself is broken for multiple users.

2. Product Defect / Bug — Feature Not Working / Software Error

Complaint Category: Product Defect / Bug

Complaint Type: Feature Not Working / Software Error

Customer Problem: A specific feature (e.g., purchases, canvas tool, sync) fails or produces an error message across multiple attempts and devices.

Root Cause: Recent software update regression, server-side outage, or unsupported device/OS configuration.

Historical Evidence (sample, de-identified, dataset-derived):

- "didn't work. tried it on another computer, fresh install, same thing..."
- "the ctrl+alt+shift on load method didn't work. (2/2)"
- "pretty much explained my issue in the quoted tweet... dragging an image onto..."

Applicable Policy / Rule: Company Terms of Service on service availability; software warranty/support policy for defect remediation.

Recommended Resolution: Reproduce issue with reported steps; check status page for known incidents; provide workaround if available; log confirmed bug to engineering with severity rating; notify customer when fix ships.

Response / Action: Request device/OS/app version via DM; provide interim workaround; set expectation for bug-fix timeline or offer credit/refund for paid feature that is unusable.

Escalation: Escalate to engineering on-call for P1 (widespread, revenue/safety impacting) bugs; escalate to billing for refund on affected paid purchases.

10. Gaming & Streaming Entertainment

Brands: Xbox (XboxSupport); PlayStation (AskPlayStation); Activision Blizzard (ATVIAssist); Spotify (SpotifyCares); Hulu (hulu_support); JackBox Games (JackBox)

1. Digital Purchase — Failed Download / Corrupted Content / Payment Error

Complaint Category: Digital Purchase

Complaint Type: Failed Download / Corrupted Content / Payment Error

Customer Problem: Customer purchased digital content (game, DLC, subscription) that fails to download, is corrupted, or the payment did not go through correctly.

Root Cause: Server-side content delivery error, payment gateway timeout, or regional licensing restriction.

Historical Evidence (sample, de-identified, dataset-derived):

- “can i get help already??”
- “so, what's the november ps plus free game?”
- “it was when i would go to download it. i just waited a...”

Applicable Policy / Rule: Platform digital storefront refund policy (e.g., refund within 14 days / under 2 hours playtime); consumer digital goods regulations.

Recommended Resolution: Verify purchase in account history; trigger re-download/cache clear steps; if content is genuinely corrupted or undeliverable, issue refund or replacement credit.

Response / Action: Request order/transaction ID via DM; provide troubleshooting steps; confirm refund timeline (5-10 business days).

Escalation: Escalate to platform payments team for failed-but-charged transactions; escalate to content/licensing team for region-lock disputes.

2. Community & Account Conduct — Unwanted Invites / Harassment / Streaming Abuse

Complaint Category: Community & Account Conduct

Complaint Type: Unwanted Invites / Harassment / Streaming Abuse

Customer Problem: Customer is receiving unwanted community invites, harassment, or reports abusive content (e.g., large unmoderated stream) on the platform.

Root Cause: Insufficient default privacy settings or gap in content-moderation coverage for live streams.

Historical Evidence (sample, de-identified, dataset-derived):

- “i bought lego star wars in the playstation store but it won't let...”
- “can i block a community from sending me invites to something i dont...”
- “brilliant, thank you!”

Applicable Policy / Rule: Platform Community Guidelines / Code of Conduct; trust & safety escalation policy for live-streamed harmful content.

Recommended Resolution: Guide customer to privacy/block settings; report offending stream/account to moderation team for review against community guidelines; suspend or remove content found in violation.

Response / Action: Acknowledge and request link/username via DM; confirm report has been filed; explain expected review timeframe.

Escalation: Escalate immediately to Trust & Safety for live harmful/illegal content; escalate to legal if content involves minors or credible threats.

11. Food & Beverage / QSR

Brands: Chipotle (ChipotleTweets); McDonald's (McDonalds); Taco Bell (TacoBellTeam); Greggs (GreggsOfficial); Papa John's (AskPapaJohns); KFC UK&I (KFC_UKI_Help); Panera (askpanera); Arby's (ArbysCares); Dunkin' (DunkinDonuts); Carl's Jr (CarlsJr)

1. Order Accuracy — Missing Item / Wrong Order / Promotion Not Honored

Complaint Category: Order Accuracy

Complaint Type: Missing Item / Wrong Order / Promotion Not Honored

Customer Problem: Customer's order was incomplete, incorrect, or an advertised promotion/discount was not applied at point of sale.

Root Cause: Kitchen/counter staff error during high-volume periods, POS system not updated with current promotion, or miscommunication at drive-thru.

Historical Evidence (sample, de-identified, dataset-derived):

- "becky is very nice"
- "i don't fit in my veggie burrito costume #halloween"
- "messed up today and didn't give me my \$3 burrito although i was..."

Applicable Policy / Rule: Company customer satisfaction guarantee policy; local consumer protection law on advertised pricing/promotions.

Recommended Resolution: Offer replacement item, refund, or goodwill voucher for next visit; flag location for staff coaching if recurring; ensure POS promo codes are corrected chain-wide if systemic.

Response / Action: Apologize, request store location and receipt/order time via DM; confirm remedy (refund/voucher) same day where possible.

Escalation: Escalate to franchise/regional operations manager for location-specific recurring complaints; escalate to marketing/IT if promotion failure is systemic across POS.

2. Food Safety — Foreign Object / Contamination / Allergen Concern

Complaint Category: Food Safety

Complaint Type: Foreign Object / Contamination / Allergen Concern

Customer Problem: Customer reports finding a foreign object, suspects contamination, or received an item not matching stated allergen-free preparation.

Root Cause: Preparation-line cross-contact, inadequate equipment cleaning, or supplier ingredient issue.

Historical Evidence (sample, de-identified, dataset-derived):

- "hey wanna come to mammoth. i'll at least eat there once a week..."
- "i had excellent service tonight too! plenty of people on the line, went..."
- "when you're the only one in costume #boorito"

Applicable Policy / Rule: FDA Food Code / local health authority regulations; company food-safety and allergen-handling SOP; product liability policy.

Recommended Resolution: Take incident seriously — do not dismiss; request details/photo for quality assurance investigation; offer full refund and, if warranted, escalate for health/safety review; do not offer medical advice.

Response / Action: Express concern, request store, date/time, and photo via DM; confirm QA case number and refund.

Escalation: Escalate immediately to Food Safety/QA and store management for any contamination or allergen-exposure report; escalate to legal/risk management if customer reports illness or injury.

12. Banking & Financial Services

Brands: Bank of America (BofA_Help); American Express (AskAmex); Chase (ChaseSupport); Wells Fargo (Ask_WellsFargo); Citi (AskCiti); RBC (AskRBC); Virgin Money (AskVirginMoney); KeyBank (KeyBank_Help); PayPal (AskPayPal); Progressive (ask_progressive); Robinhood (AskRobinhood); Visa (askvisa)

1. Transaction Dispute — Unauthorized Charge / Fraud Report

Complaint Category: Transaction Dispute

Complaint Type: Unauthorized Charge / Fraud Report

Customer Problem: Customer identifies a transaction they did not authorize and requests investigation and reversal.

Root Cause: Card skimming, phishing/account takeover, merchant billing error, or family/authorized-user confusion.

Historical Evidence (sample, de-identified, dataset-derived):

- “i’ve asked your sales rep about the payments and she wasn’t ready to...”
- “sure. please drop me a message now.”
- “amex platinum and amex everyday card.”

Applicable Policy / Rule: Regulation E (US, EFT Act) for electronic transfers — provisional credit within 10 business days of a timely-filed claim; Regulation Z / Fair Credit Billing Act for credit card disputes; PCI-DSS data handling standards.

Recommended Resolution: Freeze/replace card immediately if fraud confirmed; open formal dispute case; issue provisional credit while investigating; complete investigation within regulatory timeline (typically 10-45 days depending on transaction type).

Response / Action: Move to secure verified channel immediately — never confirm account details over public reply; provide case number and provisional credit confirmation.

Escalation: Escalate to fraud/financial crimes team for confirmed unauthorized activity; escalate to legal/compliance if identity theft or regulatory reporting (SAR) is triggered.

2. Customer Service Quality — Representative Unresponsive / Unwilling to Assist

Complaint Category: Customer Service Quality

Complaint Type: Representative Unresponsive / Unwilling to Assist

Customer Problem: Customer reports a representative did not listen to their concern or refused to address their question.

Root Cause: Agent training gap, high call volume leading to rushed handling, or unclear internal escalation path for the agent.

Historical Evidence (sample, de-identified, dataset-derived):

- “nope. they weren’t ready to listen what i wanted to say and if...”
- “thought amex values their customers. but boy you got really bad reps on...”
- ““if i don’t provide the required information by 15 feb 1970””

Applicable Policy / Rule: Company service-quality standards; Fair banking / treating-customers-fairly regulatory expectations.

Recommended Resolution: Apologize sincerely without being defensive; re-open the original concern and resolve it directly; log service quality feedback against the interaction for coaching.

Response / Action: Request account/case reference via secure DM; personally own resolution of the original issue; confirm outcome in writing.

Escalation: Escalate to team lead/quality assurance for coaching; escalate to executive/complaints office if customer requests formal complaint or threatens regulatory complaint.

13. Rideshare & On-demand Delivery

Brands: Uber (Uber_Support); Lyft (AskLyft); DoorDash (DoorDash_Help); Postmates (Postmates_Help)

1. Trip/Order Safety & Reliability — Driver Behavior / Wrong Drop-off / Stranded Customer

Complaint Category: Trip/Order Safety & Reliability

Complaint Type: Driver Behavior / Wrong Drop-off / Stranded Customer

Customer Problem: Customer reports being dropped at the wrong location, feeling unsafe, or being unable to reach support while stranded.

Root Cause: Driver app navigation error, driver policy violation, or insufficient real-time/phone support channel for urgent safety issues.

Historical Evidence (sample, de-identified, dataset-derived):

- "i have to be at work at 2pm tomorrow. my new phone is..."
- "already did that was told we requested to dropped off somewhere different which..."
- "i'm not getting your texts."

Applicable Policy / Rule: Platform Community Guidelines and driver code of conduct; local Transportation Network Company (TNC) safety regulations.

Recommended Resolution: Treat as urgent/safety-priority; verify trip details via GPS logs; investigate driver conduct and apply corrective action per policy (warning, suspension, deactivation) if violation confirmed; refund/credit affected trip.

Response / Action: Immediately provide an in-app emergency/safety contact path; request trip ID via DM; confirm investigation has been opened.

Escalation: Escalate immediately to Safety/Trust & Safety team for any personal-safety report; escalate to law enforcement liaison if a crime is alleged.

2. Order/Delivery Issue — Incorrect Refund / Order Not Delivered / No Support Response

Complaint Category: Order/Delivery Issue

Complaint Type: Incorrect Refund / Order Not Delivered / No Support Response

Customer Problem: Customer's delivery order was wrong, undelivered, or a prior refund did not match the actual loss; customer reports no response from support.

Root Cause: Restaurant/merchant fulfillment error, delivery courier misdelivery, or refund calculation excluding delivery/service fees.

Historical Evidence (sample, de-identified, dataset-derived):

- "wouldn't do this to me 😞"
- "why is there no phone number ?? i'm literally stranded and now i..."
- "literally stranded because of and because there is no support phone number i..."

Applicable Policy / Rule: Platform order-guarantee policy; refund policy requiring full order value (incl. applicable fees) for undelivered orders.

Recommended Resolution: Review order and delivery-tracking logs; issue corrected full refund or redelivery; ensure response SLA (target under 24 hours) is met going forward.

Response / Action: Apologize for the delayed response; request order ID via DM; confirm corrected refund amount and timeline.

Escalation: Escalate to merchant operations if fulfillment error is on the restaurant's side; escalate to support operations management if SLA breach (no response) is a repeat pattern.

14. Hospitality & Travel

Brands: Airbnb (AirbnbHelp); Kimpton Hotels (Kimpton); IHG (IHGService); Hilton (HiltonHelp); HotelTonight (HotelTonightCX)

1. Loyalty Program / Credit Issue — Missing Points or Credit Despite Multiple Contacts

Complaint Category: Loyalty Program / Credit Issue

Complaint Type: Missing Points or Credit Despite Multiple Contacts

Customer Problem: Customer reports a promised credit, refund, or loyalty-tier benefit has not appeared despite repeated follow-up.

Root Cause: Manual credit-processing backlog, system sync delay between booking and loyalty platforms, or the original request not properly logged.

Historical Evidence (sample, de-identified, dataset-derived):

- “i’ve just sent you a message with details. thanks for your help”
- “it was wonderful and your staff are great i hope to see you...”
- “can’t believe i am about to leave the #palomardc had a wonderful time...”

Applicable Policy / Rule: Company loyalty program terms; service-recovery policy for repeated-contact cases (typically prioritized/expedited handling).

Recommended Resolution: Pull full contact history to confirm prior promises; apply credit immediately if verified rather than restarting the process; add goodwill compensation for the repeated inconvenience.

Response / Action: Acknowledge the frustration of repeated contact; request loyalty/account number via DM; confirm credit applied with a screenshot or reference number.

Escalation: Escalate to loyalty program operations for systemic sync issues; escalate to guest relations management for cases with 3+ prior unresolved contacts.

2. Payment/Booking Platform Issue — Broken Payment Page / Booking Cannot Complete

Complaint Category: Payment/Booking Platform Issue

Complaint Type: Broken Payment Page / Booking Cannot Complete

Customer Problem: Customer is redirected to a payment provider page that is broken or unresponsive, preventing booking completion.

Root Cause: Third-party payment gateway integration fault or browser/device compatibility issue.

Historical Evidence (sample, de-identified, dataset-derived):

- “reached third tier. closing in on inner circle”
- “wine hour ink48 (candy corn??!)”
- “i have dm you multiple times! and the credit is not showing up...”

Applicable Policy / Rule: Company e-commerce/booking platform service-level policy; PCI-DSS compliance requirements for payment processing.

Recommended Resolution: Offer alternative booking channel (phone/app) to complete the reservation at the same rate; log the technical fault to engineering/payment provider for urgent fix.

Response / Action: Apologize for the inconvenience; offer to complete booking manually via DM/phone; confirm rate is honored.

Escalation: Escalate to engineering/payment-provider integration team; escalate to revenue management if the fault is blocking bookings platform-wide.

15. Cable, ISP & Utilities

Brands: Comcast/Xfinity (comcastcares); Spectrum (Ask_Spectrum); Cox (CoxHelp); CenturyLink (CenturyLinkHelp)

1. Billing / Equipment Charges — Charged for Returned Equipment / Disputed Recurring Fee

Complaint Category: Billing / Equipment Charges

Complaint Type: Charged for Returned Equipment / Disputed Recurring Fee

Customer Problem: Customer continues to be billed for equipment (modem/router) that was already returned, or disputes a recurring fee.

Root Cause: Returned-equipment scan not logged in billing system, or warehouse processing delay between return and account update.

Historical Evidence (sample, de-identified, dataset-derived):

- “would you like me to email you a copy of one since spectrum...”
- “i received this from your corporate office would you like a copy?”
- “the correct way to do it is via an ocs account takeover and...”

Applicable Policy / Rule: Company equipment return policy; state utility/cable consumer protection regulations on billing accuracy.

Recommended Resolution: Verify return via tracking/serial number in warehouse system; remove equipment fee and refund any charges billed since return date; confirm account updated to prevent recurrence.

Response / Action: Request return tracking number/receipt via DM; confirm fee removal and refund timeline.

Escalation: Escalate to billing operations if warehouse system shows no record of return (potential lost-return investigation); escalate to retention team if customer is considering cancellation.

2. Service Quality — Intermittent Signal / Recurring Technical Fault

Complaint Category: Service Quality

Complaint Type: Intermittent Signal / Recurring Technical Fault

Customer Problem: Customer reports a recurring service quality issue (e.g., picture/signal drops) that has not been fixed despite prior contact.

Root Cause: Line/plant-level infrastructure degradation, faulty in-home equipment, or unresolved prior truck-roll (technician visit).

Historical Evidence (sample, de-identified, dataset-derived):

- “that is incorrect information i have the form in front of me that...”
- “yo , your customer service reps are super nice— but imma start trippin...”
- “my picture on pretty much every day. why should i pay \$171 per...”

Applicable Policy / Rule: Company service-quality SLA; state cable/ISP consumer protection rules requiring timely repair or credit for unresolved outages.

Recommended Resolution: Escalate directly to a technician dispatch with priority flag citing prior unresolved visits; issue service credit for the affected period; consider equipment swap if in-home hardware is suspected.

Response / Action: Apologize for the repeat issue; request account/service address via DM; confirm priority technician appointment and credit.

Escalation: Escalate to field operations supervisor for a priority truck-roll; escalate to network engineering if the fault is plant-level and affects multiple households.

16. Logistics, Insurance & Other Services

Brands: UPS (UPSHelp); Asurion (AsurionCares); Sizehelpteam; Sky (SCsupport); Pearson (PearsonSupport); Nike (NikeSupport); Twitter (TwitterSupport)

1. Delivery Handling — Package Left Unattended / Not Delivered as Promised

Complaint Category: Delivery Handling

Complaint Type: Package Left Unattended / Not Delivered as Promised

Customer Problem: Customer reports a package was left in an unsafe location (e.g., outdoors in rain) without notification, or was not delivered despite tracking showing delivery attempts.

Root Cause: Driver deviation from delivery-instruction preferences, incomplete delivery-attempt notification, or address/access issue.

Historical Evidence (sample, de-identified, dataset-derived):

- “nope, i’ve got my package thanks”
- “just got off the phone w/ a rep, austin, can i just say...”
- “yall got 47 minutes”

Applicable Policy / Rule: Carrier delivery service guarantee; company claims policy for lost, damaged, or improperly delivered shipments.

Recommended Resolution: Verify delivery scan/photo evidence; if package is confirmed missing or improperly left, initiate a claim and offer replacement or refund per shipper's policy; retrain/flag driver route for delivery-instruction compliance.

Response / Action: Apologize; request tracking number via DM; confirm claim reference number and next steps.

Escalation: Escalate to local delivery station/depot management for driver conduct; escalate to claims department for value disputes over policy threshold.

2. Fee Transparency — Unexplained Surcharge (e.g., COD/Duty Fee)

Complaint Category: Fee Transparency

Complaint Type: Unexplained Surcharge (e.g., COD/Duty Fee)

Customer Problem: Customer disputes a surcharge (cash-on-delivery, customs duty, brokerage) applied without clear upfront disclosure of the amount.

Root Cause: Third-party customs/duty calculation not available at ship time, or fee schedule not clearly presented to the shipper/recipient.

Historical Evidence (sample, de-identified, dataset-derived):

- “dear thanks for just leaving my package on the porch, in the rain...”
- “i dmed you guys”
- “i’m having trouble with my choice account. please help!”

Applicable Policy / Rule: Company fee-disclosure policy; consumer protection regulations requiring clear disclosure of mandatory fees.

Recommended Resolution: Provide an itemized fee breakdown with the applicable tariff/duty schedule; waive the fee as goodwill if disclosure was genuinely inadequate; if fee is valid (e.g., customs-mandated), explain the legal basis clearly.

Response / Action: Request shipment/tracking number via DM; provide breakdown and, where applicable, confirm any goodwill waiver.

Escalation: Escalate to customs/brokerage partner for fee-calculation disputes; escalate to billing policy team if disclosure process needs systemic correction.

Appendix: Notes for RAG Ingestion

Recommended chunking strategy: treat each numbered policy card (Category — Type block) as one retrievable chunk, tagged with metadata: vertical, company_list, complaint_category, complaint_type. This preserves the full chain (problem → root cause → policy → resolution → response → escalation) in a single retrievable unit, which improves answer coherence versus splitting fields across chunks.

Suggested metadata schema per chunk:

- vertical (e.g., “Airlines”)
- applicable_companies (list of handles)
- complaint_category / complaint_type
- policy_source (regulatory citation or internal policy doc ID once real policy is substituted)
- escalation_tier (e.g., Tier 1 agent / Tier 2 specialist / regulatory-legal)

For production deployment, replace the best-practice policy fields with each company's actual internal policy corpus (SLA documents, compliance manuals) so the RAG system retrieves verified, company-specific rules rather than industry-standard defaults.
